ARTEM KOTLIAR

Computer Science Student | Software Engineering & Cloud Computing | Spring 2027 Co-op
Oakville, ON | (647) 581-9302 | artem.kotliar.work@gmail.com | github.com/NotRyuzaki01

SUMMARY

Computer Science student specializing in cloud computing, with hands-on experience building full-stack applications, AWS infrastructure, and multiplayer game systems. Previous AI engineering internship experience; comfortable working across backend development, APIs, databases, and collaborative projects.

PROFESSIONAL EXPERIENCE

AI Engineer Intern | **Resso** Apr 2026 – Aug 2026

- Participated in AI engineering discussions and development workflows in a professional team environment.
- Collaborated with teammates on technical learning, problem-solving, and communication of engineering concepts.

Peer Mentor | **Sheridan College** Aug 2025 – Present

- Coordinated 25+ campus outreach events, contributing to a 45% increase in participation across 250+ students.
- Supported new students with academic transitions and resolved questions through one-on-one guidance.

PROJECTS

WasteWise | **AI Food Waste Platform** Python · FastAPI · React · TypeScript

- Built a full-stack grocery tracking app with AI receipt scanning, inventory management, and expiration reminders.
- Developed REST backend features and a React frontend using Firebase authentication, Firestore, and analytics dashboards.
- Trained a custom item-scanning model using PyTorch and TorchVision.

Published Roblox Game | **Solo Developer** Luau · Roblox Studio

- Independently developed and published a multiplayer Roblox game with over 1 million visits.
- Generated approximately CAD $4,000 in revenue to date, with the game still active; maintain gameplay updates and persistent progression systems.

Cloud Message Board | **AWS Infrastructure** EC2 · S3 · IAM · VPC

- Deployed a PHP/Apache message board on EC2 in a custom VPC with public subnet routing and security groups.
- Configured private S3 message storage with EC2 IAM access and browser announcements through S3 CORS.

TECHNICAL SKILLS

Languages: Python, Java, C#, C++, SQL, TypeScript, Lua/Luau

Frameworks & APIs: ASP.NET Core MVC, Entity Framework Core, React, FastAPI, REST APIs

Cloud & Tools: AWS (EC2, S3, IAM, VPC), Docker, Git, GitHub, Linux

Databases & Concepts: SQLite, Firebase Firestore, OOP, MVC, client-server architecture

EDUCATION

Honours Bachelor of Computer Science | **Cloud Computing** Sep 2024 – Present

Sheridan College | Oakville, Ontario
